Mapleshade Quality

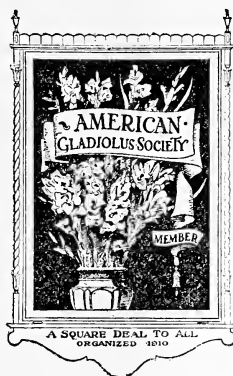

GLADIOLUS

Mrs. Earl Dehnhoff

VANBUREN, OHIO

Mapleshade Farm is Two Miles East of Vanburen
or One Mile South of Bairdstown

North Baltimore Phone

Again we present to you our Gladiolus List with greetings and best wishes for the season of 1927. It is our ambition to raise and send out only good bulbs that we feel sure will do as well for you as for us. All varieties quoted have been tested and selected with care.

The popularity of the Gladiolus is increasing tremendously. Thousands are now grown where but a few hundred were planted a few years ago. People are just beginning to realize their beauty and the satisfaction they get from them in endless ways.

The culture of Gladiolus is easy. Plant four to five inches deep in a sun-shiny place where the ground is well cultivated. Bulbs can be lifted in October and dried for a week. Store in a cool, non-freezing place.

Cut the flowers in the morning when they are fresh, and put in cold water. Change the water each day and slice off one-half inch of the stalk. The cooler the room the better they keep.

Orders are shipped as early in the spring as the weather permits. We fill orders generously as our customers know.

We extend to you a cordial invitation to visit the gardens during the flowering time which is from July until severe freezing weather.

All bulbs are first class quality. A trial will convince you.
 Everything quoted is always sent POSTPAID.
 Size A—1¼ inch and up. Size B—¾ inch.
 Bulblets—Plump stock, hand cleaned and counted.
 12 bulbs at 10 times the single price.
 6 bulbs at 5 times the single price.
 Bulblets furnished in small amounts for trial plots.

	A each	B each	Bulblets 100
